01

Unbox and Power On

Start the device setup process.

- Turn on the new Android device
- Connect to Wi-Fi or mobile data

02

Automatic Enrollment Prompt

Device contacts Google servers to check assignment.

- You'll see a message: **"This device belongs to your organization."**
- Tap **Next** to continue

03

Complete Setup Wizard

Follow the standard Android setup screens.

- Accept terms and conditions
- Configure language and region
- Set up PIN, fingerprint, or face unlock

04

Device Management Installation

Intune profile is automatically installed.

- The device installs the Intune management profile
- Tap **Accept** or **Activate** if prompted

05

Sign In with Work Account

Link the device to your organization.

- Enter your work or school account credentials
- Confirm sign-in

06

Work Profile Setup

Managed apps are placed in a separate work profile.

- A "Work" tab or badge appears on managed apps
- Personal apps remain separate

07

Finish Enrollment

Device is now managed by Intune.

- Company policies and apps are pushed automatically
- Access work email, Teams, and other resources securely
