📱 Android Enrollment Steps in Intune

1. Install Company Portal

- Open the **Google Play Store**.
- Search for **Microsoft Intune Company Portal**.
- Download and install the app.

2. Sign In

- Open the **Company Portal app**.
- Sign in with your **work or school account** provided by your organization.

3. Begin Enrollment

- Tap **Begin** to start the enrollment process.
- Follow the prompts until you reach **Device Management**.

4. Allow Permissions

- The app will request permissions (location, phone, storage, etc.).
- Tap **Allow** for each — these are required for compliance checks.

5. Set Up Device Management

- You'll be asked to let your organization manage the device.
- Tap **Activate** or **Allow** when prompted.
- This installs the **management profile**.

6. Secure the Device

- Depending on company policy, you may be asked to:
    - Set a PIN or password
    - Enable encryption
    - Install required apps (Teams, Outlook, OneDrive, etc.)

7. Verify Compliance

- Return to the **Company Portal app**.
- Tap **Done** once setup is complete.
- The app will check compliance with your organization's policies.

8. Access Work Resources

- Once enrollment is complete, you can access:
    - Work email and calendar
    - Teams, SharePoint, OneDrive

- Other protected apps and resources
